

Private Banking

Private Banking Clients enjoy the highest level of service and access to the broadest range of products afforded by Capitol Bank.

The Private Banking relationship is centered on providing a single point of contact for all your banking needs. Your Private Banker is your personal representative within the Bank providing a conduit to services spanning depository and lending. We work on your behalf to ensure prompt and efficient service.

Specific emphasis is placed on the unique financial needs of our high net worth clients, particularly in lending. For example, Capitol Bank is able to structure unique loan arrangements for purposes considered unconventional by many banks.

These include:

- Yacht and other seacraft loans
- Exotic or collector vehicle loans
- Vacation or second home real estate

In addition, Private Banking Clients have access to business and personal loans, including:

- Owner-occupied Commercial Real Estate
- Business Lines of Credit
- Equipment Loans
- Practice Buy-in Loans
- Residential Mortgage Loans
- Home Equity Lines of Credit

When Capitol Bank was established, the vision was for a bank that focused on local decision-making, above-and-beyond personal service, and deep roots in the community.
